

**Rotorcraft Directorate ASW-100 presents:**

# **2016 International Rotorcraft Safety Conference**

Surely every flight school owner/operator focuses on safety and does his or her best within budget restraints to reduce safety risks. With the resources available today, it's much easier than in the past to do just that. However, you might be surprised to find that adopting the right safety programs can actually help with your fiscal bottom line as well as your safety goals. We discuss how Colorado Heli-Ops did this and shed some light on the programs involved, including: FITS/SBT. This FAA program was developed to produce better pilots and make training safer and up to date. We also discuss safety management systems. (They are easier than you think to integrate into your operation, and they actually work). In addition, we talk about flight risk assessment tools and high-quality, scenario-based simulator training. The result of these initiatives is a training product that is less expensive, effective, and actually makes money.

## **Event Details**

**Tue, Oct 25, 2016 - 14:15 CDT**

**Hurst Conference Center**

1601 Campus Drive

Hurst, TX 76054

**Contact: Eugene Trainor**

**817-222-5123**

**[eugene.trainor@faa.gov](mailto:eugene.trainor@faa.gov)**

Select #: SW1371671

FPM Daniel Vengen

**Directions:** Driving from Dallas

From TX-183/TX-121 West

- Exit Precinct Line Road
- Continue through the light
- Turn right on Campus Drive

Driving from Fort Worth

From TX-183/TX-121 East

- Exit Precinct Line Road
- Turn left on Precinct Line Road
- Turn left on Thousand Oaks Drive

Driving from DFW International

South Entrance

- Take TX-183 West for approximately 8 miles
- Exit Precinct Line Road
- Continue through the light
- Turn right on Campus Drive

Driving from DFW International

North Entrance

- Take TX-114 West/TX121 South for approximately 3 miles
- Merge onto TX-121 South towards Fort Worth for approximately 10 miles
- Exit Precinct Line Road
- Continue through the light
- Turn right on Campus Drive

**A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
